

In order to expedite your work and get parts back to you as quickly as possible, please print, fill out, and send this form with your carburetors. If you also email this to us when you send the carburetor(s), we can pre-order your kits and have them on hand when your carburetors arrive, which will save at least another day.

As soon as we finish your carburetors, we will contact you by phone for payment. Please note that if your carburetor requires additional parts, the final cost may be higher than the estimates below.

- **Shipping:** You will pay for the shipping to us. Return shipping is included in the prices below:
- **Cost:**

Metal Carburetors

- Single Carburetor: \$95 plus the cost of the kit
- Set of 2 Carburetors: \$165 plus the costs of kits
- Set of 3 Carburetors: \$240 plus the cost of kits
- Set of 4 Carburetors: \$315 plus the cost of kits
- Set of 6 Carburetors: \$465 plus the cost of kits

Plastic Carburetors

- Set of 4: \$255 plus cost of kits
- Set of 6: \$375 plus cost of kits

- **Kits:** We will install kits from either Sierra, Mallory, or the manufacturer only. These are excellent kits and they have been used here for a number of years. If you send in kits with your carburetors, we will install what you send, but cannot guarantee the kits.
- **Other repair parts, as required:** We don't install new floats or needles if the original ones are still in excellent condition. You work hard enough for your money and it is not our intent to waste it. If you specifically want other parts to be replaced regardless of the condition, please inform us beforehand. If a part on your carburetor is broken, we will attempt to replace it from one of our parts carburetors. We have thousands. If it's reasonably inexpensive, we'll let you know at the end. If it's going to be more than 20 dollars or so for the replacement part, we will seek approval before replacing it.
- **Tax:** All services out of state are tax free. If you are in the state of Illinois, we will charge you tax unless you are a certified business with a Tax ID.
- **Each engine requires individual adjustments.** You are responsible for reinstallation and adjustments. Our work is 100% guaranteed, as are the parts, for 45 days from the date you receive the part(s). Prepare to be impressed!

Please ship your carburetors to:

Southcentral Outboards
14 North 2nd Street
Altamont, IL 62411

Your Name:
